## Education

- Full stack web development**  
Masai School  
October 2022 - August 2023
- Diploma in civil engineering**  
Government Polytechnic ,  
Shahjahanpur  
August 2019 - August 2022

## Technical Skills

- Node.js
- JavaScript
- Express.js
- MongoDB
- React
- HTML5
- CSS3
- RESTful APIs
- Responsive Web Design
- Next.js
- Angular
- Firebase

## Soft Skills

- Teamwork
- Problem-solving
- Adaptability
- Effective Communication

## Certifications

- Prompt Engineer**   
*Masai School*  
Completed Masai's Prompt Engineering accreditation as part of the Generative AI course. There i have successfully used Prompt Engineering for rapid learning of new tech stacks and to add generative AI capabilities to my web development career.

# Pranay Mishra

Node JS Developer

## Professional Summary

Dynamic full-stack web developer with a passion for creating widely used websites and applications. Proficient in JavaScript, Node.js, and RESTful APIs. Skilled in collaborating with cross-functional teams to translate project requirements into efficient backend solutions. Strong problem-solving and teamwork abilities. Stay up-to-date with emerging technologies to enhance software solutions.

## Experience

- |                       |                          |                        |
|-----------------------|--------------------------|------------------------|
| <b>Ash IT Service</b> | Full stack web developer | April 2024 - July 2024 |
|-----------------------|--------------------------|------------------------|
- Utilized Socket.io and Firestore with Google Maps APIs to create a live ride-booking system, demonstrating strong Node.js backend skills.
  - Enhanced company's CRM features by building a phone dialer, lead assignment, and notes feature, showcasing ability to develop and maintain server-side applications.
  - Designed and developed an intuitive and engaging user interface for Ash IT Services' official website, ensuring seamless integration between frontend and backend.
  - Collaborated with cross-functional teams to improve development processes, highlighting excellent teamwork and communication skills.

## Projects

- Exodus Travels** [Live Demo Link](#) [Github Repo Link](#)
  - Nodejs
  - MongoDB
  - Expressjs
  - HTML
  - CSS
  - JavaScript
  - JWT
  - Bootstrap
  - Developed a server-side application using Node.js to handle user registrations, bookings, and payments
  - Implemented RESTful APIs for seamless integration with frontend components and third-party services
  - Utilized MongoDB to store and retrieve user information and booking details
  - Optimized code and database queries to ensure fast and efficient performance
  - Collaborated with a frontend developer and a designer to ensure a seamless user experience

- Monogram** [Live Demo Link](#) [Github Repo Link](#)
  - Node.js
  - React
  - Bootstrap
  - Razorpay
  - Firbase
  - Express.js
  - Collaborated with frontend developers to integrate a seamless Instagram-like feed using Node.js and React.
  - Implemented secure authentication mechanisms using Firebase to enhance user data protection.
  - Developed and maintained critical back-end server-side applications for cart and order management.
  - Designed and optimized RESTful APIs for smooth operations of privacy settings and commenting functionalities.
  - Integrated Razorpay for membership payment processing, ensuring secure transactions and efficient payment handling.
